

# ALE SIP Devices Product e-Catalog

Enabling simpler business connections anywhere

# DELIVER SUPERIOR CUSTOMER EXPERIENCES

ALE SIP Devices are designed and manufactured by ALE China Co., Ltd, an audio technology expert in the global deskphone market, operating under the ALE SIP Devices tradename. It focuses on innovative technologies to develop a wide-range of SIP-based products that can be integrated into a variety of solutions with easy provisioning tools in a cost-effective, secure and flexible manner.

ALE SIP Devices provide global business partners and end-users products with simpler business connections, anywhere, with top-notch audio, reliable hardware and software that has under-gone extensive testing before market launch.

From innovative development to green manufacturing, ALE SIP Devices rigorously manage every component and each production procedure to ensure products meet worldwide standards.
